Stathams Marble and Granite

Dear Diane

We are delighted with the work carried out by James and Perry on our kitchen worktops.

We have had bad experiences with workmen in the past so were anxious before they arrived – the fears were soon dispelled! They were courteous and well mannered and we soon felt as though they were friends rather than workmen.

As the work is carried out on site – it meant that we were allowed to change our original design as the work progressed. James, with his vast experience suggested improvements to our plans that we had not thought of – and we were so glad he did. The overall effect was stunning. The workmanship far exceeded our expectations.

We would be happy to let prospective customers view our kitchen as we are so proud of the results!

Yours sincerely

Teresa and Paul Hollingworth
